**Introducing**

## the KIN 500!

When your weighing needs require a higher level of accuracy to weigh pigments, powders, spices, plastic molded parts and the like, the KIN 500 Class III digital weighing indicator is the best solution. It is prewired for Kilotech Top Gun bases.

### Advantages:

- ✓ Legal for Trade
- ✓ Precision up to a maximum of 10,000 counts (Maximum 5000 LFT)
- ✓ Serial port (RS232) to plug printer or computer
- ✓ Bidirectional USB for sending data and comments as well as to power the indicator
- ✓ Heavy duty design
- ✓ Measurement Canada and NTEP approved

## Why Legal for Trade Scales Make Good Business Sense

It is a Government requirement that the scale be certified legal for trade when the scale is used to determine pricing in a transaction between the trader and the customer.

In the restaurant and food equipment market, scales are often used to ensure consistency in weight for products sold or used in the preparation of product. Losing even a 1/2 oz. on each measurement could dramatically increase the cost over time to the manufacturer, baker, distributor, vendor, restaurant, etc...

Legal for Trade scales go through a thorough quality inspection, ensuring reliability – you are guaranteed a quality product and peace of mind.

# KILOTECH

## When high accuracy equals profitability for measuring even the smallest particles or parts

### Indicator Features:

- ✓ kg, lb., lb:oz, %, pcs (pcs not LFT in Canada)
- ✓ Connects to all bases, maximum 4 load cells at 350Ω
